

Project Profile:

## Los Angeles County Natural History Museum, Government Office & Community Facility

7,928-Square-Foot Administrative Building  
Located in Los Angeles, California

### DETAILS:

Pacific Mobile built and installed an impressive structure that included specialty doors, coffer ceiling insets, a stucco finish and many other carefully chosen architectural details. The end product is a facility befitting the offices of a California state senator, and the structure fits its aesthetic environment perfectly.

### TIME TO COMPLETE:

Five months from delivery to occupancy.

### SPECIAL FEATURES:

Los Angeles County needed to quickly add a high-quality modular facility to a historic site — one that already contained the Los Angeles History Museum, the U.S. Space Shuttle Endeavor and the Los Angeles Memorial Coliseum. This new modular facility had to fit seamlessly with the surrounding historic buildings. It also had to serve as office space for a California state senator and support staff. The building needed to be flexible enough to hold community events including press briefings and fundraisers. Since the actual job site was well over one-hundred-years-old, many obstacles were overcome in terms of unearthing unexpected remnants from old structures. These included pipes, masonry and unmapped lines. Pacific Mobile also worked closely to adjust work hours based on events happening at all of the other facilities on-site.

- Entry Hall
- Reception Area
- Education Center/Assembly Room
- Green Room
- Break Room
- Janitor and Supply Closets
- 5 Distinct Open Office Areas
- 7 Private Offices
- Copier/Media Room
- Electrical Room
- 2 Large, Multi-Stall Bathrooms
- 1 Private Bathroom

*"We were thrilled to take on this high-profile project. A massive effort was made to accommodate the unique job site and requests from surrounding facilities. I consider the facility that we delivered to be a jewel in our company portfolio. You'd never guess that this is a mobile structure."*

*-Michael Thompson, Southern California Branch Manager*
