

COVID-19 Emergency Response Building

1,792-square-foot Modular
Nurse Administration Building

Located in Seattle, WA

Time to Complete: 3 Days from delivery to occupancy occupation.

Project Overview:

This building offered immediate relief for nurses at an overflowing hospital in Seattle, Washington due to the COVID-19 Pandemic. The new modular space provided the hospital with a fully-functional, full turnkey building at a moment's notice during a critical time.
