

St. Madeleine Sophie Catholic Church

(3) 1,792 Sq. Ft. Single-Story
Classrooms

Located in Bellevue, WA

Time to Complete: 210 days from delivery to occupancy

Project Overview:

These permanent classroom buildings were installed in a “campus-style” configuration with a central grassed courtyard and built to meet the need of the expanding church.

To allow easy access to the existing concrete sidewalks, these buildings were installed on a permanent foundation and at ground-level. The buildings exterior features large front porches, roof dormers, and lap-siding with board and batt siding. The interior includes painted sheetrock, painted interior door/window trim with accent walls, 1/8” block flooring and vaulted sidewalls with a suspended T-grid ceiling.

Highlights:

- Design-built project
- Roof dormers
- Handicap restroom
- Modular construction
- Permanent foundation
- Large front porches
- Ground level access
