

Walla Walla Medical Clinic

6,828 Sq. Ft. Single-Story
Medical Facility

Located in Walla Walla, WA

Time to Complete: 120 days from delivery to occupancy

Project Overview:

This building was built as additional office space for the adjacent clinic installed by Pacific Mobile Structures in 2000.

The appearance of the structure was designed to match the existing buildings on campus. The clinic consisted of site installed brick exterior, architectural shingle roof, complete basement with elevator and stair case, and an exposed-beam front porch.

Highlights:

- Reception counter
- Waiting area
- Basement
- Elevator & stairwell
- Permanent foundation
- Brick exterior
