

University of California, Irvine

16,312 Sq. Ft. Temporary Dining
Facility

Located in Irvine, CA

Time to Complete: 88 days from delivery to occupancy

Project Overview:

This dining facility complements the surrounding landscape and residence halls with an appropriate color profile and varied height retaining wall. Door locations, exterior building features and workspace optimization were all considered to keep security a top priority. It was designed as a temporary structure to enable the reuse of all existing kitchen equipment and dining hall furnishings. The structure itself can be relocated and reused for future projects.

Highlights:

- Kitchen
- Dining area
- Servery
- Supply room
- Prep area
- 5 cold storage units
- Restrooms
