

## Robins Air Force Base Medical Center

**14,516-Square-Foot Medical  
Center**

**Located on Robins Air Force  
Base, GA**

Time to Complete: 16 Floors – 180 Days from Delivery to Occupancy

### **Project Overview:**

Robins Air Force Base in Georgia was renovating one of their medical clinics and needed to relocate the administrative staff to a temporary space for the duration of the project. Heely International was the general contractor on the project and put out a bid through the Mobile Corps of Engineers. The Mobile Corps of Engineers has a longstanding relationship with Sustainable Modular Management, and they recommended them for the job.

Sustainable Modular Management provided a 14,516-square-foot temporary medical center complete with fire sprinklers and alarms, access control, voice and data, and CCTV. Robins Air Force Base got the temporary space they needed, when they needed it, and how they wanted it.

### **Highlights:**

- Medical Clinic
- Fire Sprinklers and Alarms
- Access Control
- Voice and Data
- CCTV
