RAZOR FEATURES

Enjoy the flexibility of Razor Tile and Razor Panel options. Combine these options with desking, accessories, storage and seating to create a chic, complete office design. The flush base and square connectors give an upscale design while maintaining a tight budget.

Panels

Panels range from 32”-107”H and are available as monolithic or segmented, with glass, fabric or marker board stack options. Glass or fabric mullion options can be added to panels for aesthetics or increased privacy.

Panels with Desking

Gain more options and flexibility in the work place by combining our Razor Panel and Desking Systems. With the variety of low storage offerings paired with overhead choices, this system provides excellent functionality as well as being aesthetically pleasing.

Tiles

Our Razor Tiles are designed to be fully compatible with our Razor Panels. We also offer the addition of mid power tile panels. This gives more flexibility for electronics and data in your work station.

SCREEN FINISH OPTIONS

Standard Glass

Standard & Frosted

- 6mm thick
- Standard heights: 8, 13.25
- Standard widths: 22, 28, 34, 40, 46, 58, 66, 70

Note: Widths are 2” less than panel width options

Low Iron Glass

Standard & Frosted

- 6mm thick
- Standard heights: 14, 20
- Standard widths: 24, 30, 36, 42, 48, 60, 72
- Extended widths: 25.5, 31.5, 37.5, 43.5, 49.5, 61.5, 73.5

Note: Extended widths recommended when spanning connectors

Plexiglass

Standard & Frosted

- 1/4” thick
- Standard heights: 14, 18, 20, 24
- Standard widths: 24, 30, 36, 42, 48, 60, 72
- Extended widths: 25.5, 27, 31.5, 33, 37.5, 39, 43.5, 45, 49.5, 51, 61.5, 63, 73.5, 75
- Extended widths recommended when spanning connectors

Fabric

Fabric covered MDF with trim

- 8.9mm / 3/8” thick
- Over 350+ fabric options available
- T-molding available in BU, MT and WF
- Available in 8” or 13.25” heights (PGHM)
- Available in 22”, 28”, 34”, 40”, 46”, 58”, 64”, 70” widths
- Custom sizing available

Standard/LIG glass vs. Plexiglass:

Our standard glass has a slight green tint due to the iron used in the and is designed to be shatterproof, making it ideal for correctional, retail spaces or higher-traffic areas. Plexiglass can be easily custom cut to a variety of sizes, is ideal for workspaces that require custom sizing not offered in standard glass. It is less durable than standard glass and can be useful in low-traffic, non-commercial settings or as a privacy divider.

SCREEN FINISH OPTIONS

12mm PET Board

- 12mm thick tackable acoustic material
- Available in Black, Blue, Grey, Orange
- Standard heights: 14, 18, 20, 24
- Standard widths: 24, 30, 36, 42, 48, 60, 72
- Extended widths: 25.5, 31.5, 37.5, 43.5, 49.5, 61.5, 73.5

24mm PET Board

- 24mm thick
- (2) upholstered 12mm PET boards
- Fabric covered with T-molding
- Uncovered with T-molding
- Fabric covered without T-molding
- T-molding available in BU, MT and WF
